

## BigFold™ Paper Towel

- Immediately opens to full size so fewer towels are needed, reduces waste.
- Big, soft and absorbent, it's a premium towel
- Dispenses one at a time, fits any C-Fold dispenser.
- Compact case size saves storage space, 10 packs per case (220 towels per pack).
- Easy to load correctly-the towels can't be loaded upside down and will fit existing office building C-Fold and combination cabinets.
- Saves time and money on restroom maintenance. Can load 2 packs-440 towels (40% more) into dispenser at one time, allowing you to load it less often.

## X-Ray Badge Service

### X-ray Dosimeter Badges

### Protection for Doctor and Staff

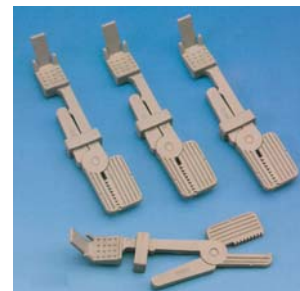

In your office, perhaps the most serious potential risk to your employees is radiation from your x-ray equipment. Of course you observe proper safety procedures, and keep your equipment in good condition. Nevertheless, a malfunction or misuse could occur at any time - and an x-ray dosimeter badge can help you discover the problem before harm is done.

Many practitioners have decided that the best way to safeguard their employees health, and at the same time protect themselves against future legal problems is to use x-ray dosimeter badges. **With a low annual cost from \$128.00 for one person to \$95.00 ea. for 8 or more people, you might think of this service as an inexpensive way to let your staff know just how much you care about their health.** Contact us for a brochure.

\* Service available in the United States only

## X-Ray Film Holders

Our x-ray film holder has 2 usable ends. One end positions the film for taking anterior x-rays, while the other end positions the film for posterior shots. Securely holds the film without bending it. Approved for use with phenols and glutaraldehydes. Steam autoclavable.
