

PLYDENTCO™ Tungsten Carbide Inserted Pliers

Plydentco offers a Lifetime Guarantee on Carbide Inserts being free of corrosion and separating from the instrument. Plydentco will also sharpen any carbide inserted cutter that dulls and reinsert any carbide plier that breaks under normal usage for five years.

- Superior edge strength promoting longer life on all cutting instruments
- Hardness and durability increases life on serrations and grooves of utility, specialty and wire bending instruments
- Tungsten carbide is non-ferrous which makes it rust and corrosion free.
