

**Mathieu Ligating Plier, Non-Inserted Narrow Beaks (#012-P)**

Precision machined finely serrated narrow beaks for ease in ligation tying and placing of elastics.

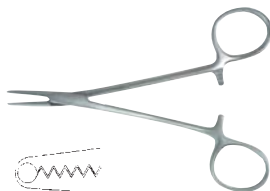

# 0117-011

\$49.95

**Elastic Inserting Hemostat (Grooved Tip) (#018 R)**

Hemostat with grooved beaks affords a nonslip grip for placing of elastics, eliminating the concern of worn hemostat tips allowing slippage of the elastics.

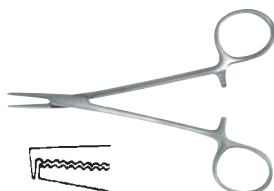

# 0117-090

\$26.95

**Elastics Inserting Plier with Hook Tip (#018)**

Developed by Orthopli for the ease and sureness of placing elastics. New tip design and locking handles assure a nonslip grip.

# 0117-030

\$23.95

**Elastic Positioner (#018-A)**

Newly designed angulated beaks for the ease and accuracy and positive holding of elastics when positioning such. Grooved angulated tips assure accessibility to all areas.

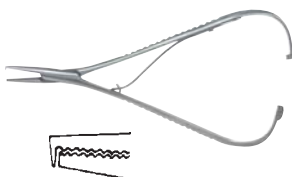

# 0117-013

\$46.95

**Mathieu Elastics Inserting Plier with Hook Tip (#018-M)**

Using the Mathieu needle holder with Orthopli's newest design tips guarantees the ease and sureness of placing elastics with a nonslip grip.

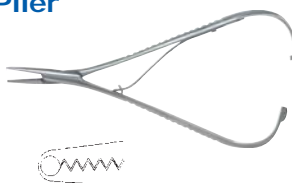

# 0117-010

\$42.95

**Mathieu Elastic Inserting Plier (Grooved Tip-#018 MR)**

The same unique design of the 018-R has been incorporated to a finely precision-made Mathieu Needle Holder with grooved tip guaranteeing the ease and sureness of placing elastics with a nonslip grip.

# 0117-012

\$42.95

**Bracket Removing Plier (Angulated) (#098-A)**

60° angle for those who prefer an angular instrument for accessible ease to molar area. Tip design allows the instrument to be used both right and left side, upper and lower.

# 0117-034

\$78.95

**Bracket Removing Plier (Straight) (#098)**

Designed with tool steel inserts for long life and ease in removing direct bond brackets. Does not engage the plier tip on the tooth when removing brackets.

# 0117-098

\$71.95

**Bracket & Adhesive Removing Plier (Lingual - Double Sided) (#095-DL)**

Double sided beaks of hardened tool steel inserts permits ease and accessibility to difficult lingual areas. Soft vinyl tips on upper beaks for patient comfort.

# 0117-95L  
\$58.95

**Bracket and Adhesive Removing Plier (#095-S)**

Designed for easy removal of direct bond brackets and adhesive. Can be easily sharpened. Nylon tip on upper beak for patient comfort. Used for both posterior and anterior.

# 0117-035  
\$78.95

**5 Replacement Tips  
# 0095-T  
\$13.95**

**Adhesive Remover - Removable Tip (#095-AR)**

New improved design features include a removable tool tip that is double ended providing twice the use of the older model.
