

Heavy-duty Sealed Lathes

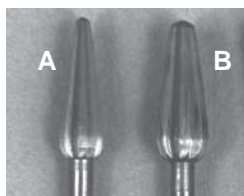

Motors are sealed against dust and dirt and run on ball bearings which require no further lubrication. Shafts are hardened against wear and tapered to accommodate true running, quick-change chucks. Chuck removers operate quickly and easily. Shaft height is preferred 4-1/2". **Tapered spindles are not supplied with these units and must be ordered separately. U.L. Listed.**

4711-A	1/4 HP	115 V	3450/1725 rpm	42lbs.	\$379.00
4711-B	1/2 HP	115 V	3450 rpm	42lbs.	\$389.00

DENTAURUM Acrylic Burs

Shaft 2.35 mm.
Stainless steel.
