\$43.75 kit for 3 or more

Granitec® M5 Ortho Multi-Cure Ionomer-Resin Band Cement

Granitec M5 is based on a combination of resin composite and glass ionomer technology in an adhesive paste form. The adhesive cures by both a light-curing and auto-curing mechanism. Has Fluoride release.

Features	Benefits
dual-cure	Setting assured in 8 minutes
high strength	greater retention of band
low solubility	stability throughout treatment

Includes:
6gm Granitec M5 Ortho catalyst syringe
6gm Granitec Ortho light-cure base syringe
