

Glass Ionomer Cement

With Fluoride Release

This special cement is totally compatible with the tooth and chemically bonds to the enamel, minimizing pulpal irritation. There is no need for acid-etching with this cement. The bond strength is very high but debands easily. Releases fluoride ions helping to inhibit caries and decalcification during treatment.

Large size 50 gram powder; 55cc liquid.

- # 0288-000 **\$49.85 ea.**
- # 0288-L—Liquid Only **\$29.85 ea.**
- # 0288-P—Powder Only **\$29.85 ea.**

Light Cure Orthodontic Band Cement

Provides light cured convenience with superior properties of high bonding strength and fluoride release! Acid etching not necessary - curing occurs in less than 30 seconds. 5g syringe.

- # 2722-50V **\$27.95 ea.**

Etching Gel

The Finest Quality Available

37% phosphoric acid provides optimal etch. Water soluble gel flows smoothly, stays put, rinses easily.

8 oz Bottle

Buy in bulk at huge savings! Refill the pre-filled syringe kit below or your current dispenser.

- # 240M-L00 **\$39.85 ea.**
- \$34.85 ea. for 5 or more**

Pre-filled Syringe Kit -

(5) 12-gram syringes per package, 100-disposable tips with each package.

- # 240M-L0A **\$54.85 ea.**

Zinc Phosphate Cement

Specially formulated for permanent cementation of crowns, bridges, orthodontic appliances and as a base under restorations. Offers high retention, toughness, ability to absorb shock and withstand lateral stress.

1 Pound Kit Contains:

1-lb. bottle powder, 4-55ml bottles liquid, dispensing vial for powder, dispensing bottle for liquid, measuring scoop and complete instructions.

1 lb. Kit

0132-001	Ceramic Blend
0132-004	White
0132-006	Gray Brown

\$78.85 kit

Powder Refill: 1 lb. bottle

0132-011	Ceramic Blend
0132-014	White
0132-016	Gray Brown

\$47.85 bottle

Liquid Refill: 55ml bottle

0132-020 **\$9.85 bottle**

Acid Etch®

Acid Etch® is silica-free, providing a cleaner, rougher, increased surface-area, free of bio-film. Acid Etch creates a deeper etch pattern for easier application of bonding materials. Odorless and tasteless, and available in a 35% concentration.

Standard Kit

4-3ml syringes Acid Etch 35% Phosphoric Acid

20 - 25 gauge Flowthru™ Microbrush Style Tips

0921-346 **\$39.75 kit**

Bulk Kit

One 60g Syringe 35% Phosphoric Acid

3-3ml syringes empty

0921-303 **\$46.75 kit**

Tips Sold Separately

Bag of 20 - 25 gauge Flowthru™ Microbrush Style Tips

0921-538 **\$19.75 bag**
