

## Leone Expansor™ 620 Rapid Palatal Expander

Laser welding of the arms eliminates any chance of the arm breaking away from the body of the expander as it virtually fuses the two parts together. Other new improvements include Laser Engraved Numbering, Directional Arrows, and batch numbers. Screw thickness 3.5mm, width 11mm. Can be used for skeletal appliances giving excellent results. Each screw includes two keys and one blue safety string. **Also available ... Rapid Palatal Half Screw .... see pg. 50**

Expansion	Length	Activ. Turns	Straight Arm	Prebent Arm
8 mm	12	35	0620-800	0620-80A
