

## Leone Expansor™ Series

Manufactured in Italy with very high precision automated equipment. Most expanders use the Muscle Thread™ mechanism which guarantees a perfect torque. Unless otherwise noted, Leone expansion screws will have Swiss alloy bodies, stainless steel threads and guide pins with plastic tags. All are supplied with keys and marking arrows. Additional pictures and descriptions are on the next page. All sizes in chart are given in mm. Pictures and descriptions on pages 46,50,51,52.

Safety and Extension Key. New improved safety feature.

# 0195-KEY

\$1.39 ea.  
\$1.29 ea. for 100 or more.  
\$1.19 ea. for 200 or more.

### Fast Back™ Molar Distalizing Kit

A truly innovative product for the distalization of molars.

- Each quadrant independently controlled by it's own activator.
- Enables precise regulation of the degree and direction of forces applied.

A176-091	Fast Back Kit (pictured)	\$69.75
P162-200	Arm Bending Wrench for Fast Back	\$8.95
5570-200	Safety Ring Leash for Key - 10 ea.	\$9.95

### Torko™ Rapid Palatal Half Screw

Designed for mandibular expansion in conjunction with Herbst-type appliance. Stainless steel key included with each screw. More information on page 58.

A062-308	Half Screw	8 mm expansion
A062-309	Half Screw	11 mm expansion

\$18.95 each  
\$18.45 ea. for 10 or more  
\$17.95 ea. for 50 or more

A062-A	Large Half Screw (20mm longer)	8 mm expansion
--------	--------------------------------	----------------

\$22.95 each

### First Class Leone® Rapid Molar Distalization Kit

Produces rapid distalization of the first and second molars, even when the second molars are completely erupted. Reduces the duration of treatment in Class II cases. Can be used both in permanent and mixed dentitions. After use for the distalization process can be easily transformed into an anchorage unit in order to complete the retraction of the frontal teeth.

# 1710-910
