

EXPANDO Original with Tongue Depressor

The *Original* Expando cheek retractor provides unrestricted access to the entire oral cavity. It retracts the soft tissues keeping the whole treatment area free without additional assistance. Every part of the mouth can be reached comfortably and work can be done without hindrance. Proven in practice on both adults and children. Convenient size marking system on the tongue guard - one dot (small), two dot (med), and three dot (large). It is a safety device, lip protector, cheek shield, and tongue guard all-in-one. The Expando will become an indispensable tool for you and your staff. Sterilizable to 110°C/230°F.
