

## RICHMOND™ Sterile Cotton Rolls

**Quality**—made from pure, soft absorbent cotton. Uncoated with starch or chemicals.

**Absorbency**—spiral winding allows unique "wicking" action to enhance absorbency, protect against seepage and provide a dryer field.

**Flexible**—bends easily to fit buccal curvature and sublingual space without forming stiff, hard wrinkles.

**Economic**—high absorbency means fewer rolls used when compared to other brands. Field stays dry longer, eliminating need to use roll after roll.
