

Above sizes are for both **snap-fit bands** as well as those **with buccal tubes** and are as close to actual size as possible.

Snap-Fit Molar Bands

Available in Kits of 100
50 left / 50 right

- Buccal and lingual indentations allows perfect contouring
- The thickness of the material is reduced on the mesial and distal sides of the band which allow increased adaptations and fit
- Laser marked for easy identification
- Bands snap on because of heat treatment during manufacturing
- Available in kits of 100 - statistically controlled for popular sizes

Description	Sizes	Left	Right	Kit (100)
